

# Tivere Frederick IDORO

## Front-end Software Engineer

tivere.tech@gmail.com ♦ +234 813 471 1972 ♦ Benin City, Nigeria ♦ [LinkedIn](#) ♦ [Github](#)

### SUMMARY

Within the past 3 years as a Frontend-heavy Software Engineer, I have built intuitive user interfaces for businesses, helping them launch and scale accordingly, with or without a team. With a strong understanding of the software development process, and excellent problem-solving skills, I can contribute to the growth and success of an innovative company.

### CORE SKILLS

- **Programming languages:** HTML/CSS, JavaScript, **Typescript**, C, Python, SQL, NoSQL.
- **Frameworks and tools:** React, Next.JS, MongoDB, PostgreSQL, MySQL, RESTful API, Git/Github, LinuxOS.
- **Soft skills:** Excellent oral and written communication, openness to learn, teamwork, problem-solving, leadership, creativity, proactivity, grit, and adaptability.

### WORK EXPERIENCE

#### Freelancing Services || 2024 – Present

##### Frontend Software Engineer:

- Developed and maintained responsive, high-performance UIs for a diverse range of clients, ensuring cross-browser compatibility and a seamless experience across devices and screen sizes.
- **Collaborated** with clients and project managers to deliver custom front-end solutions that aligned with set goals.
- **Optimized application performance** by utilizing modern front-end frameworks (React, Next.js, etc.), reducing load times, and improving overall user experience through best practices in code splitting, lazy loading, and caching.
- **Integrated third-party APIs and services** into web applications, for smooth data flow and dynamic content updates.

#### Viablestack, Lagos, NG || 2024 – 2025

##### Frontend Engineer:

- Developed and maintained a fully responsive and functional web application using Next.js.
- **Collaborated** effectively with the design and back-end team, to **optimize web applications** for speed and performance, ensuring a smooth and responsive user experience.
- **Implemented SEO best practices** to improve website visibility and search engine rankings.

### RELEVANT PROJECTS

- [Viablestack](#) – Market research AI application for businesses. Coded with React, **Next.js**, **TypeScript**.
- [Mie-Studio Music App](#) – Fullstack music app, developed with React.JS, Python, Firebase and Javascript.
- [My Portfolio](#) – Clean personal portfolio website that showcases my works. Built with Next.js, and Node.js.

### EDUCATION

- **ALX-Africa || 2023 – 2024**  
Fullstack Software Engineering
- **University of Benin, Nigeria || 2018 – 2023**  
B.Sc.(Hons.) - Science Laboratory Technology (Physiology and Pharmacology Techniques major)
